

Fasson® Mechanical Insulation Tapes

Best-in-class performance

Avery Dennison Performance Tapes offers a broad portfolio of acrylic adhesive tapes that meet contractors' performance needs in virtually any mechanical insulation application. The tapes can be applied at cold temperatures without the need to warm the tape or the substrate.

The environmentally friendly paper liner eliminates concerns over disposal, while its ability to resist tearing during the tape application process provides dimensional stability. The full line of Avery Dennison Mechanical Insulation tapes bond evenly and securely in cold or hot application conditions, and are engineered to bond with just one pass of the squeegee.

ADVANTAGES:

- Reliable performance in temperatures down to 0°F
- High tack and adhesion
- UL/ULC classified
- Cut rework with one pass bonding
- Consistent quality roll-by-roll
- Consistent 3 inch width
- Environmental friendly liner

The acrylic adhesive tapes are designed for mechanical piping and equipment, cold or hot applications, heating, venting and air conditioning (HVAC) systems, refrigeration and other low temperature piping and equipment applications.

- Same-Day/ Next-Day Service
- Contribute to LEED®
(Leadership in Energy and Environmental Design) points
